

We're going on an adventure...

N

Dear Wilderness Explorer:

We hope you are as excited about this wonderful opportunity as we are. As I'm sure you are aware, wilderness camp is going to be separate from the main camp program in many respects. As a result,, we have devised a separate packing list for you to follow. The list is broken into two sections. The first section deals with the equipment that will be provided by **Camp**. The second section is a list of gear that **You** need to provide.

Equipment provided by Camp:

Please note that if you have any of the items below we encourage you to bring them. This is a learning experience and we would like you to become familiar with your equipment. After all, one of our goals is to begin to move you in the direction of planning and completing your own wilderness trips. If you are concerned about the condition, quality or type of equipment, don't be, we will inspect it upon your arrival to ensure that it is in good working order. If we feel that it is not going to stand up to the rigors of a wilderness experience, we will replace the item with one of ours for the week. If you are new to canoeing, which I'm sure that most of you are, please do not run out and buy all new equipment, we have plenty of high quality gear for you to use. If at the end of the week, you decide that these outdoor pursuits are something you would really like to get into and explore more, then you might think about obtaining your own gear.

- Large capacity backpack (3500 cubic inch or larger)
- Rain cover for backpack
- Good quality, mummy style sleeping bag with at least a 20 degree rating and stuff sack
- Sleeping pad

The following items will be provided by **Camp and Camp only**. If you have these items please leave them at home.

- Tents
- Backcountry stoves and fuel canisters
- Cook sets
- Eating utensils and insulated mug
- Water filters
